

Dream. Design. Build.
Creating Perfect Spaces for New Beginnings

Starting construction on your new home is an exciting journey filled with dreams. At Pellettieri Associates, we know that the perfect outdoor setting is key to this adventure. Our Design and Build services guarantee a landscape as dreamy as your new home.

DESIGN
 with Vision

Our process begins with your vision. Collaborating closely with you, our team of experienced landscape architects and designers crafts a customized plan that not only meets your aesthetic and functional needs but also complements your new home's architecture and the surrounding environment. Whether it's a serene garden, a lively outdoor kitchen, or a tranquil pool area, we bring your outdoor living dreams to life.

BUILD
 with Excellence

Transitioning from design to build, our in-house team of construction experts takes the reins, ensuring that every element of the design is realized with precision and care. By handling both design and construction, we offer a streamlined, efficient, and cohesive process that minimizes stress and maximizes quality.

UNITY
 of Vision

Our design and build teams work as one, sharing insights and feedback from start to finish. This unity ensures that the initial vision is not lost but rather enhanced throughout the construction process.

EFFICIENCY
 and Accountability

With a single team responsible for both design and construction, projects move smoothly from one phase to the next. This not only speeds up the timeline but also ensures a higher level of accountability and quality control.

CUSTOMIZED
 to Fit Your Life

Each landscape is as unique as the home it surrounds. Our Design and Build approach allows us to tailor every detail to fit your lifestyle, ensuring that your outdoor space is a true extension of your home.

Are you ready to create the outdoor space that your new home deserves? Contact Pellettieri Associates today, and let's start the exciting journey from the ground up.
